No. 6, Dec. 2012

## Patron's Vision

India is a large country with vast natural resources and population of 123 crores – the largest democracy in the world. The most crucial and serious problems being faced today are poverty, inflation, unemployment and lawlessness. 40 crores of people are still living below the poverty line, even after 65 years of independence, but remaining totally ignored despite huge revenues being generated. Where it is going is a mystery. In fact, corruption is the root cause of all ills. If honesty/sincerity prevails at the top, poverty is bound to vanish and country would prosper. Every one knows but no one is coming forward to clean the system at the top. Wealth is being drained out, besides being misused in vulgar display. Radical reforms are necessary. It is with this objective in view that the foundation has decided to institute the Prizes.

Dr. Sitaram Jindal
